Better Results and Less Stress through Proven Techniques To be fully engaged in life means that we have clear goals as well as the focus and skills to accomplish those goals with ease and a sense of calm awareness. In his first book, *The Practicing Mind*, which remains a bestseller in its category, Thomas Sterner set out clear guidelines for developing focus and discipline to achieve any life goal. As Tom traveled and spoke about the book, he kept track of the questions readers and participants at his seminars asked. The answers to those questions — or more accurately, the exploration of those questions — became the basis of *Fully Engaged*. This new book explores specific techniques, such as thought awareness training and setting goals with accurate data,

and demonstrates how using these techniques will not only help you reach your objectives, but will keep you engaged in each moment of your life, throughout the process of accomplishing those goals. Being thus engaged will result in less stress and more satisfaction in every aspect of life. 74713 Includes the decisions of the Supreme Courts of Massachusetts, Ohio, Indiana, and Illinois, and Court of Appeals of New York; May/July 1891-Mar./Apr. 1936, Appellate Court of Indiana; Dec. 1926/Feb. 1927-Mar./Apr. 1936, Courts of Appeals of Ohio.

Legislative, and Judicial Branches has been umpired by the federal judiciary. It may seem surprising, then, that many otherwise ordinary cases are not decided in court even when they include allegations that the President, or Congress, has violated a law or the Constitution itself. Most of these orphan cases are shunned by the judiciary simply because they have foreign policy aspects. In refusing to address the issues involved, judges indicate that judicial review, like politics, should stop at the water's edge--and foreign policy managers find it convenient to agree! Thomas Franck, however, maintains that when courts invoke the "political question" doctrine to justify such reticence, they evade a constitutional duty. In his view, whether the government has acted constitutionally in sending men and women to die in foreign battles is just as appropriate an issue for a court to decide as whether property has been taken without due process. In this revisionist work, Franck proposes ways to subject the conduct of foreign policy to the rule of law without compromising either judicial integrity or the national interest. By examining the historical origins of the separation of powers in the American constitutional tradition, with comparative reference to the practices of judiciaries in other federal systems, he broadens and enriches discussions of an important national issue that has particular significance for critical debate about the "imperial presidency."
