Sense-Making and Shared Meaning in Language and Literacy Education Mar 14 2021 This textbook provides a framework

for teaching children's language and literacy and introduces research-based tactics for teachers to use in designing their literacy programs for children. Exploring how sense-making occurs in contemporary literacy practice, Murphy comprehensively covers major topics in literacy, including contemporary multimodal literacy practices, classroom discourse, literacy assessment, language and culture, and teacher knowledge. Organized around themes—talk, reading and composing representation—this book comprehensively invites educators to make sense of their own teaching practices while demonstrating the complexities of how children make sense of and represent meaning in today's world. Grounded in research, this text features a wealth of real-world, multimodal examples, effective strategies and teaching tactics to apply to any classroom context. Ideal for literacy courses, preservice teachers, teacher educators and literacy scholars, this book illustrates how children become literate in contemporary society and how teachers can create the conditions for children to broaden and deepen their sense-making and expressive efforts.

Tabloid Journalism in South Africa Sep 27 2019 Less than a decade after the advent of democracy in South Africa, tabloid newspapers have taken the country by storm. One of these papers -- the Daily Sun -- is now the largest in the country, but it has generated controversy for its perceived lack of respect for privacy, brazen sexual content, and unrestrained truth-stretching. Herman Wasserman examines the success of tabloid journalism in South Africa at a time when global print media are in decline. He considers the social significance of the tabloids and how they play a role in integrating readers and their daily struggles with the political and social sphere of the new democracy. Wasserman shows how these papers have found an important niche in popular and civic culture largely ignored by the mainstream media and formal political channels.

Teaching Reading in Today's Middle Schools Nov 09 2020 This text combines a research-based approach to reading instruction with the theories, issues, and strategies most relevant to prospective middle-school teachers. The authors promote a balanced approach to literacy instruction that includes active learning, cooperative learning, and critical-thinking strategies.

These strategies and their applications empower teachers to become key decision makers in their students' literacy programs. Key topics include strategies for teaching literacy through technology, working with diverse learners, standards and assessment, the use of literature in literacy instruction, and the role parents and community members play in student success. Three boxed features help teachers connect theory to practice: Model Activities provide detailed instructions for classroom activities; Classroom Scenarios serve as case studies for teacher/student interactions; and Focus on Strategies boxes highlight the benefits and challenges of various teaching methods. End-of-chapter material includes Test Yourself questions that allow students to apply their comprehension skills. For Your Journal and For Your Portfolio features also help students evaluate and implement key chapter concepts as they prepare for teaching careers.

Handbook of Reading Research, Volume III Apr 26 2022 In Volume III, as in Volumes I and II, the classic topics of reading are included--from vocabulary and comprehension to reading instruction in the classroom--and, in addition, each contributor was asked to include a brief history that chronicles the legacies within each of the volume's many topics. However, on the whole, Volume III is not about tradition. Rather, it explores the verges of reading research between the time

Volume II was published in 1991 and the research conducted after this date. The editors identified two broad themes as representing the myriad of verges that have emerged since Volumes I and II were published: (1) broadening the definition of reading, and (2) broadening the reading research program. The particulars of these new themes and topics are addressed.

The Teaching and Acquisition of South Asian Languages Jun 28 2022 The first book to apply the latest methodological analysis to the languages of South Asia, *The Teaching and Acquisition of South Asian Languages* provides a much needed examination of learners and their learning patterns, language materials and their delivery, classroom environments, and learning conditions beyond the classroom. The contributors, accredited researchers and experienced teachers, test important

universal learning hypotheses on "less commonly taught languages" and find that those circumstances have significant implications for theory and practice. The book brings into focus a variety of issues related to linguistic theory, second language acquisition research, non-verbal communication, discourse appropriateness, learner variation, and strategies for developing speaking, listening, and reading skills. It is also a valuable addition to the general body of knowledge in the field of adult language acquisition. A carefully prepared index and an extensive bibliography covering both the South Asian field and general literature enhance the book's usefulness as a reference guide.

Engaging College and University Students Jul 18 2021 Engaging College and University Students outlines creative and effective course organization and teaching-learning strategies for higher education courses. By describing specific instructional best practices, rather than addressing general questions about teaching in higher education, the author presents a valuable resource for educators to consult in the moment. The author explores the challenges of engaging students in online settings and draws comparisons with face-to-face strategies of engagement. By organizing the strategies according to course progress, and offering corresponding rubrics for assessment, this guide for instructors offers a solid foundation for an ever-changing teaching and learning landscape.

Comprehension Instruction, Second Edition Aug 26 2019 This comprehensive professional resource and text is based on cutting-edge research. In each chapter, leading scholars provide an overview of a particular aspect of comprehension, offer best-practice instructional guidelines and policy recommendations, present key research questions still to be answered, and conclude with stimulating questions for individual study or discussion. Coverage includes such timely topics as differentiated instruction, technology and reading comprehension, teaching English language learners, and the implications of current neuroscientific findings.

Language Learning Strategies in Independent Settings Aug 07 2020 In recent years traditional, classroom-based language tuition has been increasingly overshadowed by innovative approaches, such as distance learning, supported independent learning and blended learning (with an online component). This timely volume examines the use of language learning strategies in a range of independent settings, and addresses key issues for independent learners such as autonomy, strategic awareness and self-regulation.

Strategies for Literacy Education May 04 2020 This text is appropriate for both undergraduate and graduate courses in reading methods. This user-friendly resource offers a selection of broad-based and stimulating strategies to assist teachers in developing lessons that will advance students' reading abilities. The author designs strategies to motivate and to encourage

reading, to help improve the teaching-learning process, and to plan for appropriate instruction. (It is assumed that students have developed a theoretical framework about literacy before using these strategies.) The text addresses all standard literacy topics and is appropriate for instructing beginning through intermediate level readers. It emphasizes the practical application of theory and would be helpful to use in coursework connected directly to field based practicums in schools, or as a resource guide for student teachers, as well as for literary remediation.

Handbook of College Reading and Study Strategy Research Oct 21 2021 This Handbook is the most comprehensive and up-to-date source available for college reading and study strategy practitioners and administrators. In response to changing demographics, politics, policy, issues, and concerns in the field of college reading and study strategies since publication of the first edition in 2000, this new edition has been substantially revised and fully updated to reflect the newest research in the field, including six new chapters and a more user-friendly structure to make it easier for researchers, program administrators, college instructors, and graduate students to find the information that they need. In this thorough and systematic examination of theory, research, and practice, college reading teachers will find information to make better instructional decisions, administrators will find justification for programmatic implementations, and professors will find in one book both theory and practice to better prepare graduate students to understand the parameters and issues of this field. The Handbook is an essential resource for professionals, researchers, and students as they continue to study, research, learn, and share more about college reading and study strategy issues and instruction.
