In this extraordinary book, celebrated journalist Jacques Pauw gives a human face to some of the most tumultuous events in recent African history. *Rat Roads* chronicles the remarkable journey of Kennedy Gihana, a young Tutsi man who survived the genocide in Rwanda, committed horrifying atrocities in Africa's bloodiest civil war and walked thousands of kilometers to South Africa. One in South Africa he slept in parks, lived as a street child and worked as a low-paid security guard until he had saved enough money to enroll for a law degree. In 2011 he took the podium at the University of Pretoria to receive a master's degree in law. *Rat Roads* combines many strands of what life in Africa, and South Africa, is like for a large proportion of people. Besides being the chronicle of one man's unforgettable journey, it addresses topical issues such as civil conflict, xenophobia and the plight of refugees, and will open people's eyes to the reality of life on the streets. It is a story of horror and adversity, and of triumph and hope. A searingly honest, brutal story of endurance and tenacity, but with an ultimate message of hope, it takes the reader on a journey through the most turbulent times in recent African history. "A funny, raucous, eye-opening, wholly non-partisan trip in search of Americans who love their guns"-- "Pierson is an even better writer than she is a rider."—Boston Globe "World's Toughest Motorcycle Riders"—long-distance motorcycling is not a pastime but an obsession. In this candid, eloquent, sharply observed book, Melissa Holbrook Pierson introduces us to this strange endeavor and the men and women who live to ride impossibly long distances, eating up road, almost without cease. And who find it nothing but fun. Perhaps the most determined of them is John Ryan, a magnetic, enigmatic man who loves nothing better than breaking records of amazing distance—at no small risk to himself and his health. But why? Pierson, who rediscovered the joys of motorcycling in the midst of a personal crisis, puts on her helmet and joins Ryan in his element in order to understand his singular desire and discipline, his passion and his obsession. *The Man Who Would Stop at Nothing* offers an intimate glimpse of an unusually independent yet supportive community as well as a revealing, unforgettable portrait of its most daring member. In electric, pitch-perfect prose, Pierson gives us rare insights into not only a subculture but also the deeply human craving for something more that drives it. 1996 Minnesota Book Award winner — A Native American book *The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. Neither Wolf nor Dog takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new*

introduction by the author, Kent Nerburn. "This is a sobering, humbling, cleansing, loving book, one that every American should read." — Yoga Journal If you enjoyed *Empire of the Summer Moon*, *Heart Berries*, or *You Don't Have to Say You Love Me*, you'll love owning and reading *Neither Wolf nor Dog* by Kent Nerburn. 'A memorable, oddly beautiful book' Wall Street Journal 'A marvellous glimpse of the Japan that rarely peeks through the country's public image' Washington Post One sunny spring morning in the 1970s, an unlikely Englishman set out on a pilgrimage that would take him across the entire length of Japan. Travelling only along small back roads, Alan Booth travelled on foot from Soya, the country's northernmost tip, to Sata in the extreme south, traversing three islands and some 2,000 miles of rural Japan. His mission: 'to come to grips with the business of living here,' after having spent most of his adult life in Tokyo. *The Roads to Sata* is a wry, witty, inimitable account of that prodigious trek, vividly revealing the reality of life in off-the-tourist-track Japan. Journeying alongside Booth, we encounter the wide variety of people who inhabit the Japanese countryside - from fishermen and soldiers, to bar hostesses and school teachers, to hermits, drunks and the homeless. We glimpse vast stretches of coastline and rambling townscapes, mountains and motorways; watch baseball games and sunrises; sample trout and Kilamanjaro beer, hear folklore, poems and smutty jokes. Throughout, we enjoy the wit and insight of a uniquely perceptive guide, and more importantly, discover a new face of an often-misunderstood nation. This story of a Scottish lighthouse keeper's years-long quest to build a road and revive a town is "an incredible testament to one man's determination" (The Sunday Herald). Shortlisted for the Royal Society of Literature's Ondaatje Prize Calum MacLeod had lived on the northern point of the Scottish island of Raasay since his birth in 1911. He tended the Rona lighthouse at the very tip of his little archipelago—until semi-automation in 1967 reduced his responsibilities. With his newly idle hours, he embarked upon a project: to build a road out of the settlement of Arnish—a road that he hoped would lead new generations of people to this quiet, beautiful place. And so, at the age of fifty-six, Calum MacLeod, the last man left in northern Raasay, set about single-handedly constructing the "impossible" road, using hand tools. It would become a romantic, quixotic venture, a kind of sculpture; an obsessive work of art so perfect in every gradient, culvert, and supporting wall that its creation occupied almost twenty years of his life. In *Calum's Road*, Roger Hutchinson recounts the extraordinary story of this remarkable man's devotion to his visionary project. "MacLeod defied powers [outside] his control in the only way he could . . . paints a compelling picture of the man." —Sunday Times "Wonderful." —The Telegraph "A gem of a book." —Alexander McCall Smith This Journal/Notebook is filled with lined, college ruled pages. He was drunk when he married her, stone cold sober when he found her dead. Out on the sunlit streets of L.A. walked the man—her lover, her killer—who had been with her that fatal night. Taylor intended to find him. And when he did, the gun in his pocket would provide the quickest kind of justice. But first Taylor had to find something else: an elusive memory so powerful it drove him down three terrifying roads toward self-destruction—grief, ecstasy, and death. How far would you go to save a dog's life? The extraordinary story of one man who has driven more than 1 million miles to rescue thousands of dogs from hunger, abuse and neglect and give them a second chance at life and love. For years, Greg Mahle struggled to keep the last of

his family-run restaurants afloat in Ohio. When it finally closed, he was broke and unsure what to do next. Then a stranded van-load of puppies changed his life forever. Join journalist Peter Zheutlin as he travels with Greg from Ohio to the Gulf Coast on his Rescue Road Trips to bring hard-luck dogs from the deep South to loving "forever families" up north, with the help of many selfless volunteers along the way. From Houston's impoverished Fifth Ward--where thousands of strays roam the streets--and high-kill shelters in Louisiana, to joyous scenes of adopters embracing their new pups in the Northeast, Rescue Road is full of heart: an inspiring story about the unique bond between dogs and humans, and how going the extra mile can make a life-changing difference for these loyal canines-and for us all. A nomad and a swindler embark on an eccentric road trip in this picaresque, philosophical novel by the author of *The Man Who Planted Trees*. The south of France, 1950: A solitary vagabond walks through the villages, towns, valleys, and foothills of the region between northern Provence and the Alps. He picks up work along the way and spends the winter as the custodian of a walnut-oil mill. He also picks up a problematic companion: a cardsharp and con man, whom he calls "the Artist." The action moves from place to place, and episode to episode, in truly picaresque fashion. Everything is told in the first person, present tense, by the vagabond narrator, who goes unnamed. He himself is a curious combination of qualities--poetic, resentful, cynical, compassionate, flirtatious, and self-absorbed. While *The Open Road* can be read as loosely strung entertainment, interspersed with caustic reflections, it can also be interpreted as a projection of the relationship of author, art, and audience. But it is ultimately an exploration of the tensions and boundaries between affection and commitment, and of the competing needs for solitude, independence, and human bonds. As always in Jean Giono, the language is rich in natural imagery and as ruggedly idiomatic as it is lyrical. From the Pulitzer Prize finalist and National Book Critics Circle Award-winning author of *Newjack*, an absorbing book about roads and their power to change the world. Roads bind our world--metaphorically and literally--transforming landscapes and the lives of the people who inhabit them. Roads have unparalleled power to impact communities, unite worlds and sunder them, and reveal the hopes and fears of those who travel them. With his marvelous eye for detail and his contagious enthusiasm, Ted Conover explores six of these key byways worldwide. In Peru, he traces the journey of a load of rare mahogany over the Andes to its origin, an untracked part of the Amazon basin soon to be traversed by a new east-west route across South America. In East Africa, he visits truckers whose travels have been linked to the worldwide spread of AIDS. In the West Bank, he monitors highway checkpoints with Israeli soldiers and then passes through them with Palestinians, witnessing the injustices and danger borne by both sides. He shuffles down a frozen riverbed with teenagers escaping their Himalayan valley to see how a new road will affect the now-isolated Indian region of Ladakh. From the passenger seat of a new Hyundai piling up the miles, he describes the exuberant upsurge in car culture as highways proliferate across China. And from inside an ambulance, he offers an apocalyptic but precise vision of Lagos, Nigeria, where congestion and chaos on freeways signal the rise of the global megacity. A spirited, urgent book that reveals the costs and benefits of being connected--how, from ancient Rome to the present, roads have played a crucial role in human life, advancing civilization even as they set it back. **NEW YORK TIMES BESTSELLER** • From the beloved Pulitzer Prize-winning author, a sparkling novel about misperception, second chances, and the sometimes elusive power of human connection. Micah Mortimer is a creature of habit. A self-employed tech expert, superintendent of his Baltimore apartment building, cautious to a fault behind the steering wheel, he seems content leading a steady, circumscribed life. But one day his routines are blown apart when his woman friend (he refuses to call anyone in her late thirties a "girlfriend") tells him she's facing eviction, and a teenager shows up at Micah's door claiming to be his son. These surprises, and the ways they throw Micah's meticulously organized life off-kilter, risk changing him forever. An intimate look into the heart and mind of a man who finds those around him just out of reach, and a funny, joyful, deeply compassionate story about seeing the world through new eyes, *Redhead by the Side of the Road* is a triumph, filled with Anne Tyler's signature wit and gimlet-eyed observation. A veteran on the frontier has his eyes on the prize but needs to watch his back in this thrilling Western novel from the author of *The Lawless Frontier*. A nation is staggering to its feet after the long, devastating Civil War. The West is full of dreamers, wanderers, fighters and builders. One man has a plan to build a railroad--that plunges him into a brutal battle for survival. **IN A LAND OF BEAUTY AND DEATH...** In the high Rocky Mountains, Civil War veteran Marshall Brewster has a

vision of wealth and fame. Under the tutelage of a hardened railroad tycoon, Brewster will build a railroad connecting Colorado's booming silver mines to a country starved for wealth--and maybe win himself the hand of a beautiful woman in the process. But as in war, Brewster's plan is soon shattered by the enemy: an angry, proud and desperate tribe of Cheyenne warriors, a competing railroad baron and the ruthless, murderous hired guns at his beck and call... On a landscape of towering mountains, driving snow and clear rushing streams, the blood of fighters and innocents is being shed. And for a man who thought he already had his fill of war, another is just beginning--with no retreat, no surrender, and even bloodier than the battle he left behind... Ripped from the pages of *New Avengers*, comes an explosive hidden story of Marvel's secret past, the secret history of Marvel's most secret team - how they came together and how they are ripped apart. Plus: Spidey's got a new lease on life, new powers and a new costume, courtesy of his new best friend Tony Stark. So what could possibly go wrong? With clouds quickly building on the horizon, the bonds that Spider-Man now forges may very well determine his capacity to withstand a coming storm. The Marvel Universe is about to split down the middle, and the line is drawn here! You will be asked: whose side are you on? Discover the twists and turns of one of America's great infrastructure projects with this "engrossing history of the creation of the U.S. interstate system" (Los Angeles Times). It's become a part of the landscape that we take for granted, the site of rumbling eighteen-wheelers and roadside rest stops, a familiar route for commuters and vacationing families. But during the twentieth century, the interstate highway system dramatically changed the face of our nation. These interconnected roads--over 47,000 miles of them--are man-made wonders, economic pipelines, agents of sprawl, uniquely American symbols of escape and freedom, and an unrivaled public works accomplishment. Though officially named after President Dwight D. Eisenhower, this network of roadways has origins that reach all the way back to the World War I era, and *The Big Roads*--"the first thorough history of the expressway system" (The Washington Post)--tells the full story of how they came to be. From the speed demon who inspired a primitive web of dirt auto trails to the largely forgotten technocrats who planned the system years before Ike reached the White House to the city dwellers who resisted the concrete juggernaut when it bore down on their neighborhoods, this book reveals both the massive scale of this government engineering project, and the individual lives that have been transformed by it. A fast-paced history filled with fascinating detours, "the book is a road geek's treasure--and everyone who travels the highways ought to know these stories" (Kirkus Reviews). Do you wish you knew how to talk to people about life's deepest and most sensitive topics? In *The Listening Road*, you'll ride along on one man's remarkable 33-day journey cycling 3,000 miles across the United States on a mission to engage with people from all walks of life in real conversations about things that matter most. As a pastor, Neil Tomba noticed a disturbing trend among people in church: they were finding it increasingly difficult to talk about God to those outside of the church. Neil wanted to practice what he preached, so he set out to bike across the United States, talking--and, more importantly, listening--to strangers from all walks of life about faith, their stories, and matters of the heart. *The Listening Road* takes you on Neil's remarkable journey across the country and straight into its soul--from Route 66 motels to state parks, a lake house, and a railway car; from conversations with Amish farmers to chats with truckers, cowboys, mechanics, and a descendant of Daniel Boone. From one city, farm, and highway to the next, we discover practical, actionable ways to change our posture toward others to foster conversation, why curiosity, kindness, and respect open up communication about God, and how even in a culture of division and antagonism, real connection is possible. In our polarizing time, Neil models with compassion and curiosity that genuine connection happens only if we are willing to listen in love. *Roads to Power* tells the story of how Britain built the first nation connected by infrastructure, how a libertarian revolution destroyed a national economy, and how technology caused strangers to stop speaking. In early eighteenth-century Britain, nothing but dirt track ran between most towns. By 1848 the primitive roads were transformed into a network of highways connecting every village and island in the nation--and also dividing them in unforeseen ways. The highway network led to contests for control over everything from road management to market access. Peripheries like the Highlands demanded that centralized government pay for roads they could not afford, while English counties wanted to be spared the cost of underwriting roads to Scotland. The new network also transformed social relationships. Although

travelers moved along the same routes, they occupied increasingly isolated spheres. The roads were the product of a new form of government, the infrastructure state, marked by the unprecedented control bureaucrats wielded over decisions relating to everyday life. Does information really work to unite strangers? Do markets unite nations and peoples in common interests? There are lessons here for all who would end poverty or design their markets around the principle of participation. Guldi draws direct connections between traditional infrastructure and the contemporary collapse of the American Rust Belt, the decline of American infrastructure, the digital divide, and net neutrality. In the modern world, infrastructure is our principal tool for forging new communities, but it cannot outlast the control of governance by visionaries. A boy discovers his Native American heritage in this Depression-era tale of identity and friendship by the author of *Code Talker* It's 1932, and twelve-year-old Cal Black and his Pop have been riding the rails for years after losing their farm in the Great Depression. Cal likes being a "knight of the road" with Pop, even if they're broke. But then Pop has to go to Washington, DC--some of his fellow veterans are marching for their government checks, and Pop wants to make sure he gets his due--and Cal can't go with him. So Pop tells Cal something he never knew before: Pop is actually a Creek Indian, which means Cal is too. And Pop has decided to send Cal to a government boarding school for Native Americans in Oklahoma called the Challagi School. At school, the other Creek boys quickly take Cal under their wings. Even in the harsh, miserable conditions of the Bureau of Indian Affairs boarding school, he begins to learn about his people's history and heritage. He learns their language and customs. And most of all, he learns how to find strength in a group of friends who have nothing beyond each other. With the deep emotion and insight of "a true storyteller" (Richard Eder, Los Angeles Times), Christopher Tilghman, the author of the acclaimed *Mason's Retreat* and *In a Father's Place*, has written a powerful new novel of men and women, fathers and families. Eric Alwin has gone to visit his elderly father, a once commanding and charismatic Maryland senator who has seen his public service soured--and his family broken--by a sex scandal. Realizing that his own unfaithfulness, his disaffection with his career and marriage, seem to be a continuation of a family pattern, Eric is astonished to find his father proposing a bold expedition. The ensuing trip through the Deep South and the American heartland becomes both a journey into the emotional truth of the Alwin family and a breakthrough into a new kind of resilience and understanding, and love. Along the way, Eric will know anew not only his mother, Audrey, but his sisters, Alice and Poppy, and his own wife and son. As he discovers the surprising secret behind the scandal that defined his father's fate, he will also realize what he must do to shape a more authentic and coherent life for himself. Christopher Tilghman's *Roads of the Heart* is a brilliant achievement by an author who, grappling with the strains and discords of contemporary American culture, achieves a special understanding of how family members love and lose and find one another every day. A marriage which shouldn't be. The path to forgiveness begins in unlikely places. And love can bloom among the thorns. Immigrant Francisco has escaped the cruelty of Cuba, but has been a man without a true home. Now terminal cancer has driven him into the arms of Stacy. Traveling half-way around the world together, they each have a journey to take. Francisco confronts his past. While Stacy tries to open her heart after a devastating first marriage. Both pushing each other in ways they are unwilling to accept. Can he make amends and say he's sorry for his wrongs? Can she learn to let go and be free to love again? In a collection of twentyfive original essays, the author of *The Following Story* chronicles his travels throughout Spain over the course of three decades, discussing his trip through La Mancha, the magnificent Prado Museum, a visit to the shrine of the Black Madonna of Guadalupe, and more. Reprint. NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the

best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*. A journalist, diplomat, and writer, William Christian Bullitt (1891–1967) negotiated with Lenin and Stalin, Churchill and de Gaulle, Chiang Kai-shek and Goering. He took part in the talks that ended World War I and those that failed to prevent World War II. While his former disciples led American diplomacy into the Cold War, Bullitt became an early enthusiast of the European Union. From his early (1919) proposal of disassembling the former Russian Empire into dozens of independent states, to his much later (1944) advice to land the American troops in the Balkans rather than in Normandy, Bullitt developed a dissenting vision of the major events of his era. A connoisseur of American politics, Russian history, Viennese psychoanalysis, and French wine, Bullitt was also the author of two novels and a number of plays. A friend of Sigmund Freud, Bullitt coauthored with him a sensational biography of President Wilson. A friend of Bullitt, Mikhail Bulgakov depicted him as the devil figure in *The Master and Margarita*. Taking seriously Bullitt's projects and foresights, this book portrays him as an original thinker and elucidates his role as a political actor. His roads were not taken, but the world would have been different if Bullitt's warnings had been heeded. His experience suggests powerful though lost alternatives to the catastrophic history of the twentieth century. Based on Bullitt's unpublished papers and diplomatic documents from the Russian archives, this new biography presents Bullitt as a truly cosmopolitan American, one of the first politicians of the global era. It is human ideas and choices, Bullitt's projects and failures among them, that have brought the world to its current state. Experience the hidden byways of America's prairies, steppes, and grasslands through the unerring eye of landscape photographer and educator David Skernick. Covering Kansas, Oklahoma, Nebraska, and the Dakotas, these unforgettable panoramic images place the viewer directly into our country's vast interior, containing wild bison, longhorn cattle, freight trains, abandoned homesteads, and agricultural patterns with startling geometries. The journey also passes through parts of the iconic Route 66 that most travelers never see. Skernick, who leads photography workshops nationwide, lets us in on his camera strategies, with an appendix listing exposure, equipment, and panorama statistics for each image--enough to satisfy even the most technology-minded photographer. Spur Award winner. Western Heritage Award winner. Never before has an author captured so vividly the mental turmoil and physical suffering of those 'once lords of a great land' forced to live on reservations as has Benjamin Capps. "In prose that is blunt and forceful, without any loss of sensitivity, he has set down the saga of Joe Cowbone, his friends and foes in *The White Man's Road*. At once a painful and inspiring story, a moving panorama of an era, and a penetrating examination of the dilemma of a reservation Indian who wants to be a man, the whole is a novel filled with magnificently incisive portraits." - Boston Herald. *The White Man's Road* tells the story of Joe Cowbone, son of a Comanche mother and a white trader, as he makes his way to manhood at a time when reservation Indians had been forced into "the white man's road" - a steep and thorny path for many of them. "Hungry? Check the Green Book. Tired? Check the Green Book. Sick? Check the Green Book." In the late 1930s when segregation was legal and Black Americans couldn't visit every establishment or travel everywhere they wanted to safely, a New Yorker named Victor Hugo Green decided to do something about it. Green wrote and published a guide that listed places where his fellow Black Americans could be safe in New York City. The guide sold like hot cakes! Soon customers started asking Green to make a guide to help them travel and vacation safely across the nation too. With the help of his mail carrier co-workers and the African American business community, Green's guide allowed millions of African Americans to travel safely and enjoy traveling across the nation. In the first picture book about the creation and distribution of *The Green Book*, author Keila Dawson and illustrator Alleanna Harris tell the story of the man behind it and how this travel guide opened the road for a safer, more equitable America. *The White Man's Road* tells the story of Joe Cowbone, son of a Comanche mother and a white trader, as he makes his way to manhood at a time when reservation Indians had been forced into "the white man's road" a steep and thorny path for many of them.
