*Adventure Guide Grenada, St. Vincent and the Grenadines* Nov 24 2019 "My wife and I took this book with us on a recent Yankee Clipper cruise from Windjammer. The book was quite useful with good descriptions (usually a paragraph or two) of the accommodations and restaurants on the islands we visited (Grenada, Mayreau, Bequia, Carriacou, Tobago Cays). The authors were very up front about the experiences they DIDN'T like which helped us to avoid frustration. The book also had a nicely organized table of contents which helped navigate the book quickly... This is an excellent guidebook for the area and is highly recommended." -- Matthew Clark (Amazon reviewer). A guide to St Vincent, Grenada and the Grenadines. It covers Mustique, Bequia, Palm Island, Tobago Cays, Carriacou, Mayreau, Petit St Vincent, St Vincent and Grenada, at the southern end of the Caribbean arc, just below St Lucia. St Vincent has the oldest botanical gardens in the Americas; on Bequia, some islanders still harpoon whales as their ancestors did; Grenada has pristine reefs and abundant natural beauty; and tiny Mustique, home to countless celebrities, has verdant mountains. The series of "Adventure Guides" are about living more intensely, waking up to your surroundings and truly experiencing all that you

encounter. Each book offers a mix of practical travel information along with activities designed for everyone, no matter what their age or ability. Comprehensive background information - history, culture, geography and climate - presents a knowledge of each destination and its people. Regional chapters take you on an introductory tour, with stops at museums, historic sites and local attractions. The volumes also cover: places to stay and eat; transportation to, from and around your destination; practical concerns; useful websites; e-mail addresses; and tourism contacts. Detailed regional and town maps feature walking and driving tours. "This guide is immediate and thorough; it give a host of places and activities that could fulfill even the most bored tourist's desires. The book is salted with the kind of personal experience that makes visiting these islands so special. They take us away from palm beaches, island vistas and rugged emerald mountains and put us in touch with the people who inhabit these beautiful places. From fishermen in Barrouallie to Rastas in the Port Elizabeth market and a botanist in St. George's, we get a sense of the lives that entwine to make up the fabric of these islands. Also, each section begins with a history of the place at hand, so important to understanding the southern Windwards. The authors have produced a journeyman labor, a product of discernment and enterprise tempered with warmth and humor. Those of us who have seen the southern Windwards as a special place for so long have reason to be thankful and relieved." Paul Tyler, Caribbean Compass
